

Minutes from Holy Angels Cemetery Meeting
Feb 1st, 2010

In attendance were Mike Hopfensberger, Paul Uitenbrock, Marie Matthews, Jeff Stumpf and Debbie Sonnleitner, and Ben Dietzen.

Opening prayer

Approval of minutes-Ben motioned to approve and Paul seconded the motion.

Mike stated that with the help of Jeff they feel that Section A is complete, it may not be 100% accurate however it is the best they could do.

Rules and Regulations-Once the revised rules and regulations are complete Mike will get with Appleton Monument to inform them of the requirements on the foundation/slab size. That will read...The foundation of the monument shall be 6" larger on all sides than the base part of the stone. Single stones shall be no longer than 30" and no higher than 34". Double stones or larger can be no longer than 48" and no higher than 36".

Cemetery maintenance update: New clutches have been installed in both mowers, the raking in fall worked out well with the 8th graders do it as they just needed some direction and this year it will be done the same way. Paul made a motion and Debbie seconded to give the 8th grade class money for doing this job as in the past this was done, Mike will check with Patti on that issue and have it taken care of.

Improvement of the cemetery entrance: We all should check out entrances to other cemeteries to get ideas for arches or pillars and check out the pillars made by someone in Combined Locks.

Other Business: It was noted that the perpetual care fund is now separate from the regular funds.

Next meeting-scheduled for Wed May 12th at 7:00pm

Ben motioned to adjourn-Paul seconded
